

Devotion by Mike on The Foremost Essential For A Healthy Church based on **Titus 1:5**

- o A health church must have strong leadership
- o Leadership comprises of several elders.
- o Elders need to reside locally to the church.
- o Elders must have the qualifications listed in 1 Timothy as well as Titus.
- o Those who are elders must desire to be one.

Questions to ponder:

1. Is our church healthy? If not, what need to be done according to Paul's instruction?
2. How are we going to seek out those elders who desire to be one?
